

John's Village Market Fundraiser Program

John's Village Market has always recognized the vital need for a tight knit community built upon our local schools, places of worship, and other organizations designed to strengthen our neighborhood. This type of community is not only profitable for local businesses like ourselves, but it is essential to the growth and maturation of our youth, the strengthening of our families, and the development of our friendships. For this reason we have created the John's Village Market Fundraiser Program to do our part in lending our hand in helping to continue the priceless services these establishments offer.

Below are two convenient options we have designed for you to choose from to help raise your well needed funds. We hope that you will find them useful and beneficial towards your cause. Also as part of our participation in each fundraiser, we will donate a \$20 gift card/certificate for a purchase of at least 50 Hoagies/Hoagie Cards, to be given as a prize to the highest seller of the individual fundraiser.

John's Hoagie Card-

We have designed a small, business card size certificate, which is redeemable for one 6" hoagie of any kind. Each card will be sold to you for \$4 and re-sold for the suggested price of \$5, resulting in a twenty percent (\$1) profit of which will go straight to your fundraiser. These cards are perfect for any type of fundraiser because they are easy to handle and sell at your own pace, and also give your fundraiser supporters the chance to decide what kind of hoagie they want at a discounted price even after your resale to them. Recommended for ease and convenience.

John's Hoagie "Re-Sale"-

This option is exactly what it sounds like. You buy our 6" hoagie for the discounted price of \$4 (no tax) to be re-sold at the recommended price of \$5 each, so as to make the intended twenty percent (\$1) profit for your fundraiser. This option is great for any special event or planned hoagie sale for which you would hold to raise funds for your organization.
